## Strangers In Our Backyard

### Mysterious Wildlife In The Bahamas

Every day some famous adventurer discovers a new plant or animal that is unique and beautiful in some deep

underwater home or in a far away jungle. Well, we are going on an Ocean Safari to meet some of the "strangers" that live right here in The Bahamas that most people know very little about. Some of these new friends may seem weird, but they all share our country with us and make it unique and beautiful in their own special way. This year, we will explore the wild natural history of the Manta Ray, the Sperm Whale, the Humpback Whale and the Bahamian Rock Iguana.

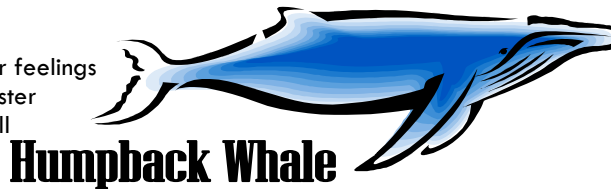

Learn more about these strangers, the challenges they face, and express your feelings through art in the Marine Education Poster Contest 2010. As a bonus, DE staff will present a FREE Marine Assembly Program at your school to introduce you to the Strangers In Our Backyard!

To learn more about these animals, use the M.E.P.C. info sheet or contact our education staff at (359-0278) or at www.DolphinEncounters.com.
