## Weekly Camps (Ages 8-12)

### Whale Tales

(June 26th - 30th) (July 31st - Aug 4th)

It's all about the pranksters of the ocean... dolphins, sea lions and other cool marine mammals. This week is jammed full of new animals and cool activities, including meeting a dolphin!

### Eat or Be Eaten!

(July 3rd - July 7th)

Join us for an amazing look at how ocean animals defend themselves to avoid predation. We explore how animals use camouflage, venom, and spines to avoid being dinner.

### Whacky Wildlife

(July 17th - 21st) (Aug 14th - 18th)

From animals that produce electricity, to others that can change colors at a moment's notice. This week introduces some animals that have the strangest adaptations in the animal kingdom.

### Blue Planet

(July 24th - 28th)

Every continent has a unique environment that makes the animals found there special. Every day we will focus on a major continent highlighting the wondrous animals found only there.

## Weekly Camps (Ages 4-7)

### Fins & Fun!

(June 26th - 30th) (July 31st - Aug 4th)

This week is all about getting to know the special animals we call marine mammals. Campers will learn about these ocean friends through art projects, games and animal interactions.

### Crazy Creatures

(July 3rd - July 7th)

This week is full of arts, crafts & fun that make animals from all around the world come alive. Campers will discover how animals survive in the place they call home.

### Explore the Shore

(July 17th - 21st) (Aug 14th - 18th)

Fishes, starfish and sharks plus more! Kids will discover some of the unique traits that make ocean animals special. This week is full of beach exploration, marine arts & crafts and fun times that bring the ocean alive.

### It's A Shelly World

(July 24th - 28th)

This week features the unique lives of animals that carry their homes with them. Hermit crabs, conchs, turtles and others will be highlighted in activities, fun crafts and games.

## Weekly Camp (Ages 13-17):

### Junior Marine Biologist (NEW)

(June 26th - 30th) (July 3rd - July 7th)  
(July 17th - 21st) (Aug 14th - 18th)

Does your teenager love ocean animals and science? Then sign 'em up for this new camp! Geared for young marine scientists, each camp explores the mysteries of the ocean by diving into research and hands-on experiments. Campers will gain a greater understanding for marine life while having tons of fun under the sun!

## Day Camp (Ages 4-12) \*
